" Portraying the American Family "

All prints ordered directly through Christopher (via favorites folder) are retouched, color corrected, and handled by Cj. Hand embellishing on canvas is also available. This is a technique where Christopher prints your portraiture on canvas and hand texturizes selective areas to give your prints a “painterly” feel. Please ask for special pricing.

We use the newest Epson “State of the Art” printers and original Epson K3 HDR inksets. These are 100 yr. inks (archival)

If you order your prints through the website directly there is no add'l editing. This is a third party Professional Lab we use to expedite our orders. The quality is just as good. But no retouching is available.

Remember you will get a

FREE 8X10 PRINT IF YOU ‘LIKE ‘ us ON FACEBOOK:
